

THE AWARD WINNING NEW **MUSO**

PART-TIME 4 WHEEL DRIVE

Part-time four-wheel drive allows the driver to choose when to activate the system, depending on changing conditions on or off the road. Operational safety and efficiency are therefore superior to that of a full-time 4WD system.

EXPRESSIVELY DOMINANT ON EVERY ROAD

The new Musso is the ultimate package of powerful driving experience and sporty dynamic styling; more than capable off-road with refined sedan-like features for urban and highway cruising, made possible with part-time 4WD.

BALANCED DRIVE & STABILITY

A new quad frame design chassis built with ultra-high tensile strength steel, that isolates road shock when driving over rugged terrain or speed bumps, ensuring optimal stability. This ultra strong frame along with the new five link suspension also allows for smooth ride when the road surface gets rough.

UNCOMPROMISING SAFETY

The new Musso features uncompromising safety that protects passengers from all angles. Combined with a highly strengthened chassis and integrated 'crash zones' at the front and rear which is designed to absorb force in the event of frontal collision.

ACCOMODATING YOUR EVERYDAY LIFE

The new Musso comes with an upgraded Euro 6 2.2 litre turbodiesel power plant, with an all new turbocharger for increased power & efficiency. Enjoy improved fuel economy and easy driving dynamics with smooth Aisin 6-speed automatic transmission.

Whether you have a taste for adventure or looking for a reliable workhorse and everyday commute, with the new Musso you can enjoy the best of both worlds.
